

Programme of the visit

WT2.9: University of Bradford

Task leader name: Prof. Urszula Markowska-Kaczmar

Visiting person name: prof. Daniel Neagu

Period: 28.04.2016 - 22.05.2016

Name of the person at the partner institution with whom you agreed the programme: Prof. prof. Daniel Neagu

Scientific activities agreed with the visiting partner:

1. The development of the vision of partnership for H2020 project calls. There are two options to discuss:
Big data in health care (patients records, NLP, data mining, anonimisation),
Smart cities (big data, smartcitizenship, compatience cities).
2. Verification of the paper: Anna Palczewska, Urszula Markowska-Kaczmar, Daniel Neagu: Can Feature Contributions Be Used for Evaluation of Neural Network Prediction Reliability for New Data?
3. Continuation of work for publication in Big Data for Automotive Industry
