## Personal Information

Karin Hek, a researcher of The Netherlands Institute for Health Services Research (NIVEL), Utrecht, from the Netherlands, visited Wrocław University of Technology, Poland, in the period from 2014-03-13 to 2014-03-15 to discuss joint research opportunities and take part in the ENGINE project activities. At NIVEL Karin Hek is involved in the FP7 supported TRANSFoRm project and she works with the NIVEL Primary Care Database, that collects routinely registered data from general practitioners, out-of-hours-services and other primary care providers.

## Description of scientific activity in details

(Please describe value added to the ENGINE project i.e. new knowledge, new skills with respect to the objectives of the project, the assigned common area of future cooperation with the partner, plans for common research, projects, publications and how it could be used in the scope of ENGINE)

The main topic discussed during the visit has been the grant proposal that Wrocław University of Technology and NIVEL were about to prepare together with other European partners - LHS Face. This visit has been one of the visits that led to writing the grant proposal.

## Description of other activities

This visit has also been the first visit of NIVEL researchers to Wrocław University of Technology. Its goal is to establish a long-term relation between NIVEL and WrUT in terms of medical data processing, applying the machine learning algorithms for clinical prediction rules discovery and medical data quality. The outcome of the visit was the plan for the future visits of WrUT and NIVEL researchers.
