## Personal Information

Piotr Bródka is a faculty member of Wrocław University of Technology, Department of Computational Intelligence, Wrocław, PL visited Blekinge Institute of Technology in the period from 17.09.2015 to 23.09.2015 in order to carry out research and training activities within ENGINE Project Work Package 2 - Enhancing expertise and exchanging know-how through twinning activities with partnering organizations.

## Information about Seminars

Presentation on Multi-layered Social Networks on 18.09.2015

## Description of scientific activities

During this visit Piotr Bródka, Aleksandra Kijaczko-Dereń, Henric Johnson and Fredrik Erlandsson have been mainly working on Organization and Executing ENIC 2015 Conference

1. From 17.09 to 20.09 we have been working on preparation of the conference – program, catering, certificates, rooms etc.
2. From 21.09 to 23.09 we have been working on execution of the conference – the detailed description of the conference can be found in the Engine report on conference organization from ENIC 2015
3. Apart from the main task Piotr Bródka has been able to present Multi-layered social networks. After that Piotr Bródka, Henric Johnson and Fredrik Erlandsson discussed the progress of joint research in the area of social networks and scheduled the publication plan for the next few months
4. Finally the possible visits in Wrocław University of Technology have been discussed. Fredrik Erlandsson plans to visit WrUT for mid-term visit between November and December 2015. And both Fredrik Erlandsson and Henric Johnson plans to visit WrUT for short visits in January 2016

Information referring to the intellectual property: the generally binding law in this area in the visited country and procedures of patenting;

Unfortunately the stay was short and completely filled out with tasks related to the conference organization and execution, thus there is no time to discuss this area.

Description of the procedure of cooperation between universities and SME in visited country: how it is organized, the sources of funding, the opinions about drawbacks and strengths of existing solution.

Unfortunately the stay was short and completely filled out with tasks related to the conference organization and execution, thus there is no time to discuss this area.

The only thing was short presentation on Telenor (Swedish telecommunication company) which has its lab next to the university building in order to facilitate better cooperation between the university and the company.
